

Xtralis ICAM Accessories

Features

- Sampling Points
- Filters

Sampling Points

Xtralis ICAM provides various sampling points for the different applications.

The classic sampling points are typically used for cabinet protection. The sampling unit is an assembly of a flush or raised sampling point with a maximum of 1,5 m drop down 8 mm tube.

Stainless steel sampling points are used where aesthetics are predominant.

Filters

Scintered EOL Filter for Micro Bore 6mm Tube

This is typically used where there is risk of small insects or dirt entering the micro bores.

Replacement Filter Element

This sets Medium and Fine for the internal filters inside the IFT, IAS and ILS series detectors

The FireTracer Filter+

This is used as a pre-filter where aspirating systems are installed to monitor excessively dusty or damp environments. Aspirating systems are ideally suited to harsh environments where conventional smoke detectors would fail to operate when subjected to water spray or excessive dust. The tubing network can be kept clean with periodic manual or automatic compressed air purges and the air sampling detector can be protected with filter+. The filter element has a large surface area to minimise the service replacement intervals. The particle sizes trapped by the element are 30µm and above as standard with other pore sizes available.

Xtralis ICAM Accessories

Ordering Information

02-1016-15	Flush Capillary Sampling Point (Red T-Piece, 1.5m red Capillary Tube Raised)
02-1008-15	Capillary Sampling Point (Red T-Piece, 1.5m red Capillary Tube)
02-1008-30	Standard Pipe Sampling Point
02-1009-00	Sampling Point Label (Roll of 100)
02-2001-30	Microbore 6mm Sampling Tube - 30m reel
02-3000-06	Stainless Steel Sampling Point (6mm tubing)
02-3000-08	Stainless Steel Sampling Point (8mm tubing)
02-FL01-01	Sintered End of Line Filter (Microbore)
02-FL53	Replacement Filter Element FT series, pack of 10 (Coarse 20 ppi)-Black
02-FL53W	Replacement Filter Element FT series pack of 10 (Coarse 20 ppi)-White
02-FL56	Replacement Filter Element FT series 10 pack (Fine 45 ppi) -Black
02-FL56W	Replacement Filter Element FT series 10 pack (Fine 45 ppi)-White
02-FL54	Filter Element for FLU2 Filter Unit
02-FLU2	Filter Unit 25mm c/w Filter Element (for Harsh environment)
